PROJECTS

Subway2Feira

Metro System App

2021 – 2022

- Designed an application for a fictional metro system in Santa Maria da Feira, focused on meeting user needs.

SLE

European Football Super League App

2020 – 2021

- Created an SLE management platform supporting CRUD operations (clubs, stadiums, etc.), standings visualization, and access to statistics.

All2You

Company Management App

2020 – 2021

- Developed a management system for the fictional company ALL2YOU, covering products, orders, machinery, operators, and more.

VaxManager

Vaccination App

2020 — 2021

- Developed a COVID-19 management program (no GUI) with CRUD operations for users, nurses, and vaccination appointments, including vaccination site listings.
